## Write a review that matters so we can improve the content on UiPath Go! Marketplace

This one pager is meant to support anybody interested in reviewing reusable components from UiPath Go! aiming to increase user engagement and improve the content on the platform.

Check out any or all of the guidelines below:

-			-										-					
-											•		-					
												Usability						
-					-	-	-	-	-		-							
-		-			-		-					Is the reusable component working						
-							-	-				as outlined in the description?						
-					-	-		-				Do you identify any advantages or						
-			-		-	-	-	-				limitations when using this reusable						
-							-	-				component?						
۰.																		
	U	SF	efu	ıln	e	35						• • • • • • • • • • •						
-	Can it be integrated with other																	
-	Go! components?																	
How did you use it/think of using										na								
it? (Domain / Industry / Process)										-
