

UiPath Accelerators for SAP® ECC® and SAP S/4HANA®

Quickly launch your SAP automation projects

Our Accelerators for Basis administration, finance, sales, procurement and manufacturing provide a bundle for the most demanded and most valuable automations that UiPath customers are using on top of SAP ECC or SAP S/4HANA. Use them out of the box to accelerate implementation time of your automations projects:

-  Robust automations
-  Integration on UI and API level
-  SAP RPA and SAP Testing
-  Jump-start in SAP automation

What is an Accelerator?

UiPath Accelerators can be downloaded directly from [UiPath Marketplace](#) and contain ready-to-go workflows for the most-used transactions and applications in SAP ECC and SAP S/4HANA. Predefined workflows can be used for both SAP Robotic Process Automation and as an SAP Test Cases, thus creating synergies in your automation journey. They are built for both SAP WinGUI automation as well as native integration via SAP BAPI to ensure that automations are robust, stable and performant.
