CREATING YOUR
AUTOMATION DNA

NTT DATA
NOVATIO

Presented by:

Vincent Sciotto: Senior Director
Automation and AI, NTT DATA

Dr. Gokul Solai: CEO, Novatio
Solutions

# Introductory Message

**PLAIN & SIMPLE**

**Here's the brutal truth**:
If your automation program is driven by tools you are unlikely to succeed.

Drive success via organizational change

Replicate quick wins

Scale based on value, not "bots"

**NTT DATA**
**NOVATIO**

OVERVIEW

**A New Perspective
Toward the Future**

NTT DATA
NOVATIO

State of Affairs

Our Goals

NTT Tools
UiPath Platform
Ecosystem

How We Did It

# Automation DNA

**NOVATIO**

Core Robotic Services™

Nucleus™ Intelligent Scaling Platform
Revolve™ Continual Innovation Center
Amplify™ Innovation Training Pathways

**Reusable Components and Use cases**
Can be leveraged for multiple tools

**Development Blueprints**
Allow for use cases to be deployed cross-platform

**Modules**

Code that we have developed to bridge automation gaps

**Analysis Logic  and Alignment to Data**

To support cross-platform analytics and consolidation of data

# Automation DNA

**NTT DATA**

**NOVATIO**

Core Robotic Services™

Nucleus™ Intelligent Scaling Platform

Revolve™ Continual Innovation Center

Amplify™ Innovation Training Pathways

**CRS™ Functions**

- SAP Invoice
- Finance AP/AR
- SD Ticket Sentry
- IT Provisioning
- PW Reset
- Finance Reporting
- Onboarding
- Offboarding
- Vendor Management
- Swivel Seat

**Each Nucleus has over 5,000 unique configuration options**

**01** Nucleus functions can easily be customized to provide quick value to clients

**02** CRS™ are simply picked and inserted into the nucleus to provide a unique function

**03** Governance, Security, and Infrastructure are preserved each time the nucleus replicates
