

The background is a solid orange color. It features several abstract geometric shapes: a large, light-orange circle in the top-left corner, a smaller light-orange circle in the bottom-left corner, and a light-orange rectangle on the right side. The word "Forward" is written in a large, white, sans-serif font, followed by three vertical bars of increasing height.

strategy with UiPath AI
Skills and AI Fabric**

Automation Now a C-Level Priority

The
Economist

INTELLIGENCE
UNIT

91% of surveyed
organizations are using
automation technologies

73% are 'very' or
'entirely' satisfied with the
returns from automation to
date

For **84%** of companies,
automation is a C-level
executive's responsibility

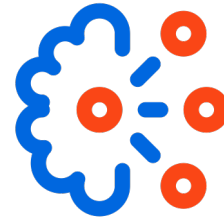

You want to automate **more complex** and
cognitive processes.

Can I **automate that?**

... different interfaces?

... with AI/ML?

... that complex process?

With UiPath **Artificial Intelligence**, you can
automate more.

Demo

UiPath AI Fabric and AI Computer Vision

UiPath AI Computer Vision enables robots to “see” the screen

Benefits of UiPath AI Computer Vision

UiPath robots to “see” the screen without the need for technical selectors

Resilient to small UI changes and software upgrades

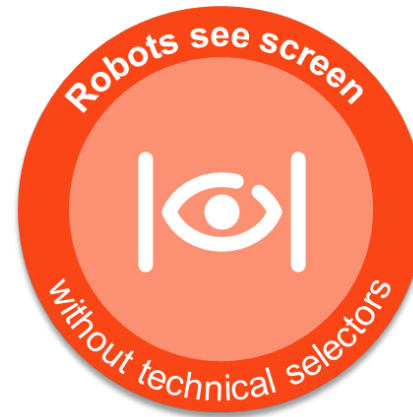

Multiple Deployment Options – SaaS or On-Prem

AI Computer Vision

AI Computer Vision

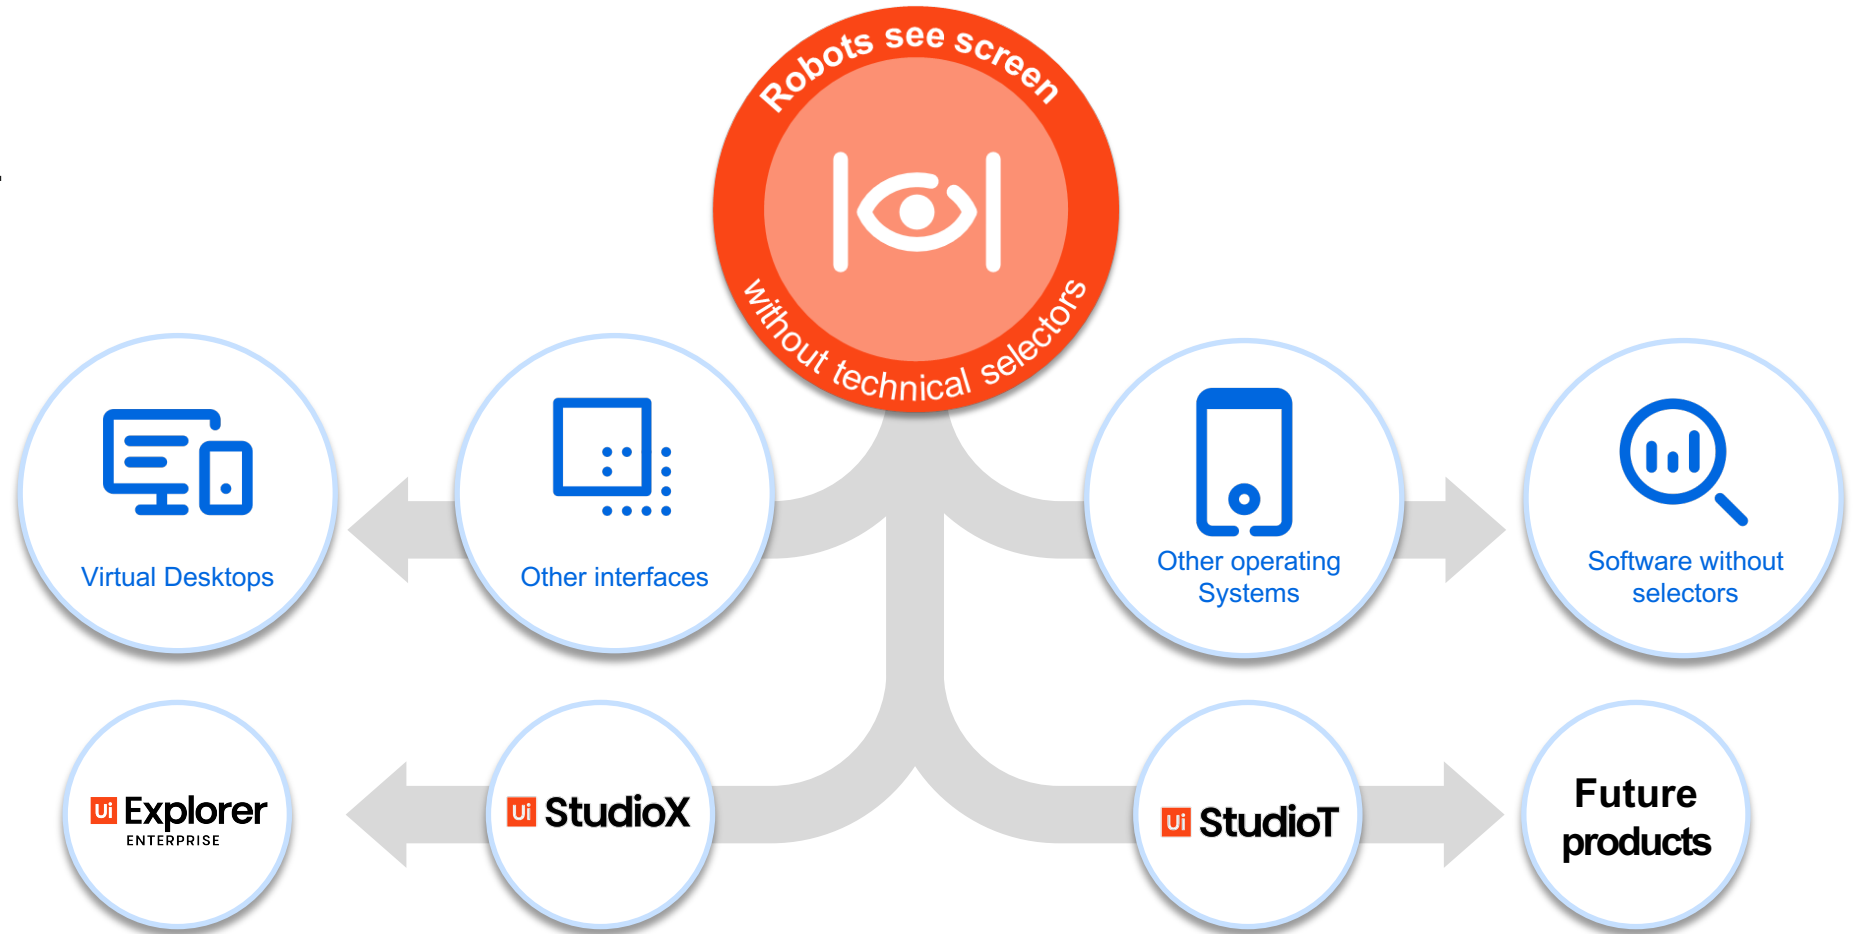

AI Computer Vision enables you to automate more interfaces

AI Computer vision enables...

Automating on more interfaces...

And is infused in the UiPath Platform

Forward

Meet your speaker

Anton McGonnell

Director,
Product Management - AI
UiPath

AI Fabric offers nearly unlimited opportunities for powering your automations with AI

1

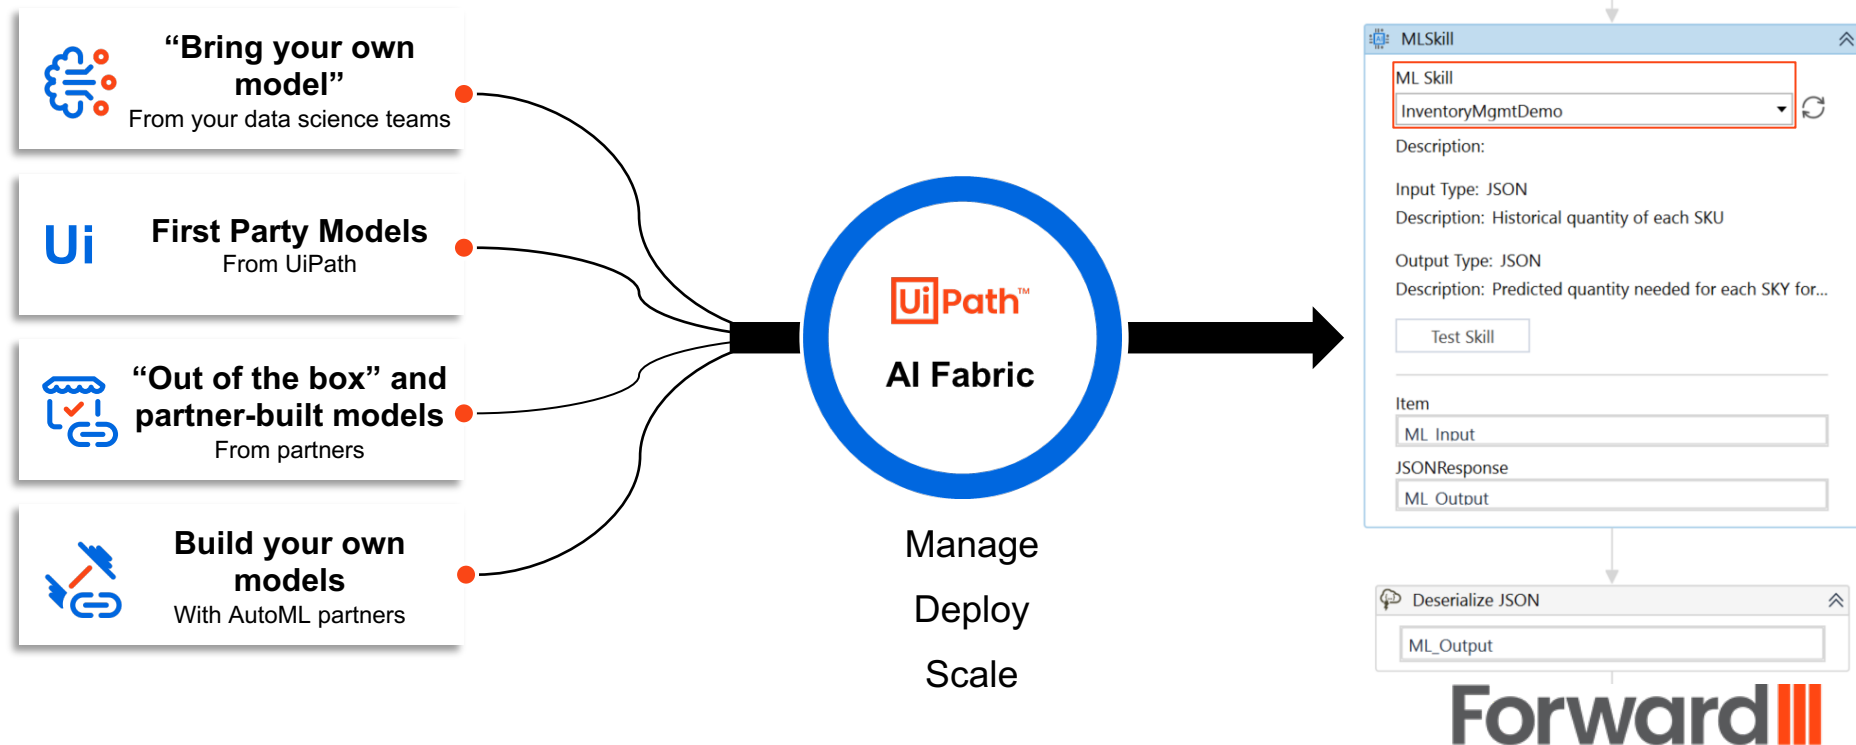

Choose a model.

2

Deploy on AI Fabric.

3

Drag and drop AI into RPA workflows in UiPath Studio.

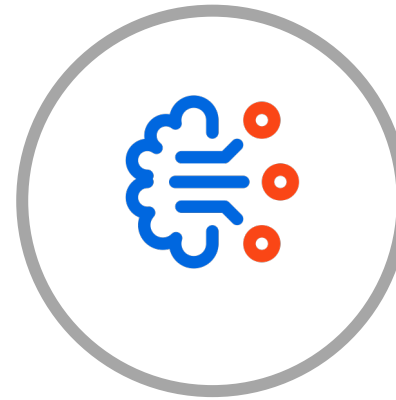

AI Fabric helps your entire organization take the next step in your automation journey

Your
RPA Center of Excellence

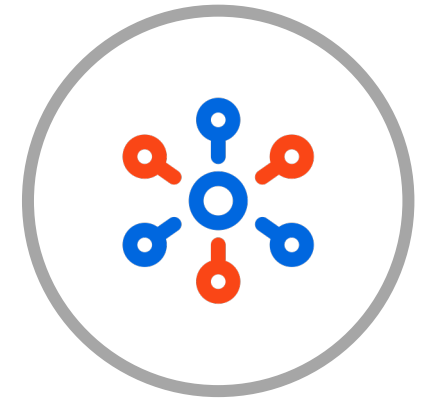

Easily apply AI to your automation workflows, enabling automation of more complex processes

Your
Data Science Teams

Take AI out of the lab to solve real business challenges.
Understand how AI is applied in the real world.

Your
Organization

AI/ML models improve and grow with your organization, becoming part of your company's strategy.

Forward

UiPath robots are learning new AI skills

Visual Understanding

Automate business processes that use virtual desktops – and more

Cross platform

Desktops and web apps

VDI environments

Images – PDFs, Flash, Silverlight

Automation beyond selectors

Document Understanding

Process more documents faster using AI

Receipts

Invoices

Complex and lengthy reports

Specialized insurance and mortgage forms

Signatures, stamps, logos

Conversational Understanding

Understand natural language inputs and make automations interactive

Chatbots

Voice assistants

Natural Language Processing

Internal use cases: IT Help desktop, employee onboarding

External use cases: Customer service and sales chatbots

UiPath is making **internal investments in a core set of AI skills** and also leveraging our ecosystem of **over 100 AI technology partners**.

Forward

Over 100 AI technology partners, out of the box.

Document Understanding AI

Conversational Understanding AI

Process Understanding AI

Visual Understanding AI

Specialized ML

Forward

(Back to that question from the beginning of the presentation...)

Can I **automate that?**

Can I automate that?

Can I **automate across multiple operating systems** and virtual desktop?

YES.

AI Computer Vision is how.

Can I create automations with AI models **developed by my data science teams**?

YES.

UiPath AI Fabric is how.

Can I process both **repetitive and complex documents**?

YES.

Document Understanding AI is how.

Can I make my automations **interactive and understand natural language**?

YES.

UiPath Conversational Understanding AI is how.

Can I use **that company's AI** in my automations?

YES.

UiPath's ecosystem of 100+ AI technology partners is how.

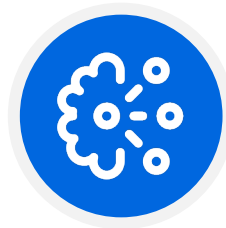

Forward 

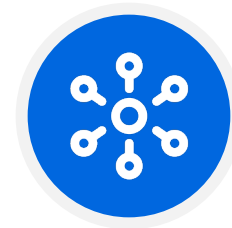

With UiPath **Artificial Intelligence**, you can
automate more.

**More interfaces and
operating systems**
with
AI Computer Vision

More AI/ML
with
AI Fabric

**More complex and
cognitive processes**
with
UiPath AI Skills and
100+ AI technology
partners.

Forward
